GOOD SERVICE ON PARTY LINES
Good service on party lines is a matter of fair sharing. Folks who keep calls reasonably short and allow time for others on the line to do their share of calling build good will and good service.

CLICK

When you are using your party-line telephone, and the other party picks up *his* telephone to make a call, you will hear a faint "click." It is a polite signal that the other porty would like to place a call. The friendly, considerate thing to do at that point is to wind up your conversation as soon as possible.

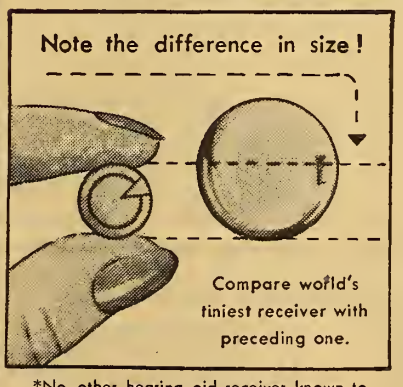
A HEARING AID LIKE THIS!
World's Tiniest Receiver—Called "Modern Miracle"*
New Aid Offers Unmatched Frequency Range



*No other hearing aid receiver known to Audivox experts comes even close to being as tiny as the new Super 67 receiver.

Try the new
AUDIVOX
Super 67
Based on Bell Telephone Laboratories designs

A product of Audivox, Inc., successor to Western Electric Hearing Aid Division, this tiny instrument offers a wider frequency range than was ever available before. Its tiny receiver — *by far the smallest ever made* — is scarcely larger in diameter than an ordinary shirt button.

Imagine a huge shopping center housing every office and store in town. That is the size of the Yellow Page market. But in this market you do not have to walk from shop to shop to get prices—and there is no waiting in line. Just look under the proper heading in the Yellow Pages. A few phone calls . . . and you make your purchase without stirring from your chair.

THE YOUNGER GENERATION'S
TELEPHONE REPUTATION

*Does your offspring rate cheers or groans as a telephone user? Some young people do stay on the telephone for hour-long sessions, studying, playing records or just talking. Such habits cut off the other party's service and give the young folks a bad telephone reputation.

CLICK When you are using your party-line telephone, and the other party picks up *his* telephone to make a call, you will hear a faint "click." It is a polite signal that the other party would like to place a call. The friendly, considerate thing to do at that point is to wind up your conversation as soon as possible.

When you are using your party-line telephone, and the other party picks up *his* telephone to make a call, you will hear a faint "click." It is a polite signal that the other party would like to place a call. The friendly, considerate thing to do at that point is to wind up your conversation as soon as possible.

Imagine a huge shopping center housing every office and store in town. That is the size of the Yellow Page market. But in this market you do not have to walk from shop to shop to get prices—and there is no waiting in line. Just look under the proper heading in the Yellow Pages. A few phone calls . . . and you make your purchase without stirring from your chair.
